BUILT FOR THE WAY YOU LIVE.

Life moves quickly. The BAIC X55 is engineered to keep pace.

With confident performance, bold design, intelligent technology, and refined comfort, the X55 delivers a driving experience designed for modern life.

DESIGN THAT MOVES YOU

The BAIC X55 pairs striking modern styling with purposeful detail. Sculpted bodywork, hidden door handles and a bold lighting signature give it a presence that feels confident and contemporary. Large 19-inch alloy wheels and a panoramic sunroof balance form and function, while clean surfaces and sharp lines define a new design language for BAIC.

TURBOCHARGED CONFIDENCE

Powered by a 1.5-litre turbocharged petrol engine, the X55 delivers strong performance with everyday efficiency.

Producing up to 138 kW and 305 Nm of torque, paired with a smooth 7-speed dual-clutch transmission, it responds with control and composure across both city streets and open roads.

Selectable drive modes allow you to tailor the experience for comfort, efficiency, or a sportier response when the road opens.

KEY STATS

- Max Power: 138 kW @ 5500 rpm
- Max Torque: 305 Nm @ 1500–4500 rpm
- Transmission: 7-speed DCT
- Drivetrain: Front-wheel drive

SAFETY FOR EVERY JOURNEY

The BAIC X55 features a comprehensive Advanced Driver Assistance System (ADAS), designed to enhance awareness and support confident driving in real New Zealand conditions.

The 360° surround view camera provides a clear, all-round view of the vehicle, supporting safer low-speed manoeuvres and improved visibility in tight spaces.

Front and rear parking sensors work alongside the reversing camera to simplify parking in confined urban areas and busy car parks.

Intelligent Adaptive Cruise Control maintains a safe following distance on the highway, helping reduce driver fatigue over longer journeys.

Advanced Driver Assistance Technologies, including Autonomous Emergency Braking, Forward Collision Warning, Blind Spot Detection, and Lane Departure Warning, supporting driver awareness in traffic.

SMART DRIVE, SIMPLIFIED

The X55 brings together intelligent driving systems designed to make every journey feel smoother and more controlled. Electronic Power Steering with dual modes adapts to speed and conditions, while features like Auto Hold, Electronic Parking Brake, and Hill Assist systems reduce effort in daily driving. Everything operates seamlessly in the background, so you can stay focused on the road ahead.

Drive Mode Selection:

Easily switch between ECO, Comfort, Sport, and Smart modes to suit traffic, road conditions, or driving style.

Electronic Power Steering (Dual Mode):

Steering response adapts automatically to vehicle speed for lighter city manoeuvring and confident highway stability.

Auto Hold & Electronic Parking Brake:

Reduces driver fatigue in stop-start traffic by holding the vehicle securely without constant brake input.

Hill Assist Systems:

Hill Start Assist and Hill Descent Control help maintain control when pulling away uphill or navigating steep gradients.

Brake Override System:

Automatically prioritises braking input to enhance safety during emergency situations.

Integrated Drive Control Systems:

Key vehicle systems work together in real time to deliver smooth acceleration, stable handling, and confident response across changing road conditions.

READY FOR EVERY ROUTINE

Designed with everyday life in mind, the X55 is built to handle the demands of family routines and city-to-city travel with ease. From morning school runs to weekend getaways, it delivers a calm, comfortable drive that fits seamlessly into modern life.

A stable ride, refined suspension, and intelligent safety technologies help reduce stress behind the wheel, while generous interior space ensures passengers travel in comfort. Whether navigating busy urban streets or cruising between cities, the X55 is engineered to adapt - supporting your day-to-day journeys while staying ready for what's next.

COMFORT & SPACE

For everyday family life, the X55 offers generous rear-seat space and a comfortable ride for passengers of all ages. Whether it's school runs, after-school activities, or weekend trips, everyone travels relaxed and supported.

The X55 adapts easily to busy schedules, with a versatile cargo area that handles groceries, sports gear, school bags or luggage for a quick getaway. Practical space makes every journey simpler.

Up front, the X55 prioritises driver comfort with supportive seating, heating and ventilation, and easy electric adjustment. Long commutes and inter-city drives feel effortless, whatever the season.

Step inside and you're welcomed by a clean, modern interior designed to reduce stress behind the wheel. Thoughtful materials, intuitive controls, and ambient lighting create a calm space for every drive.

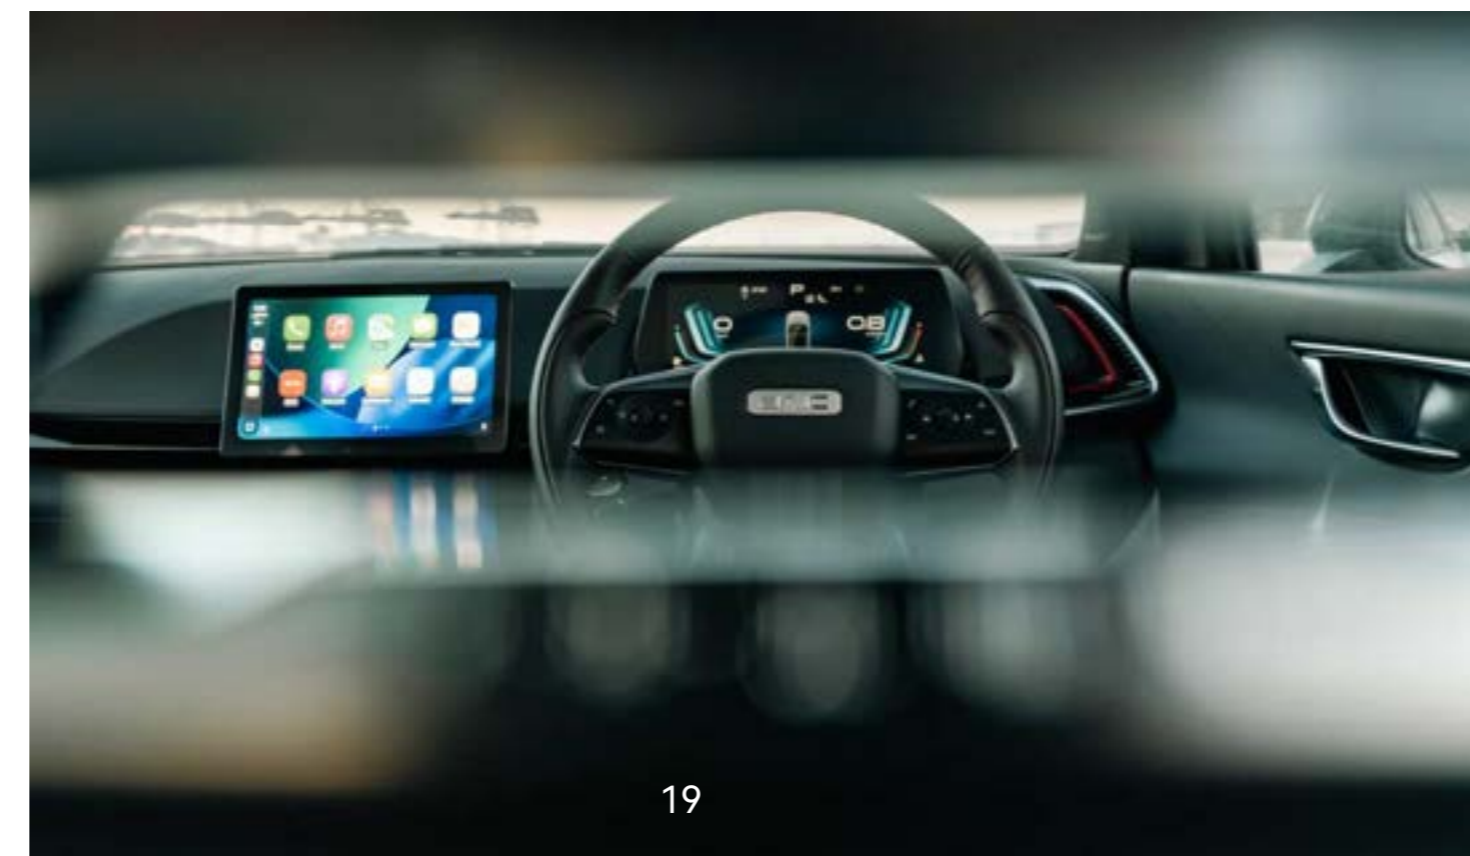

CONNECTED & IN CONTROL

Inside the X55, technology is designed to feel intuitive and within easy reach. A dual 10-inch display layout keeps key information and entertainment clearly in view, creating a cockpit that feels modern, focused and easy to use.

Features include:

- 10-inch central control touchscreen
- 10-inch LCD digital instrument display
- Wireless Apple CarPlay™
- Android Auto connectivity
- Wireless smartphone charging
- Multi-function steering wheel controls

Together, these features create a connected, driving environment that feels seamless, responsive and ready for everyday use.

CONFIDENCE COMES STANDARD

The most important drives are built on trust. When you choose the BAIC X55, you are choosing a vehicle designed for modern life. Built to meet global standards of quality and safety, it delivers the performance, technology and refinement you rely on every day. From daily commutes to weekend escapes, the X55 is ready for wherever life moves next.
